Feel the aura of the Mediterranean.
Discover the experience of the most natural rest.
Travel comfortably to the sweetest dreams.
Enjoy every day full of the energy of the Mediterranean.
Taste the experiences of the most refreshing sleep.
Listen to the Nymphs of the Mediterranean lullaby you.
Get inspired by everything you love about the land and the sea of the Mediterranean.
Touch the high quality of the most natural materials.
Embrace your "wishes" and create the mattress you dream of.

WAKE UP IN THE MEDITERRANEAN

Where your mind "travels" having the heart as a compass.
Where you feel full, creative, blessed.
Where you meet magical landscapes, endowed with the amulets of nature.
Where people speak with their hands and laugh with their souls.
Where when you close your eyes you continue to see the sun, the colors, the sea.
Where you can touch the soft cotton, the pure wool.

**There, where, as you sink deep into a sweet sleep...
you wake up in the Mediterranean!**

We want to convey this "awakening" to the world and the aura of the Mediterranean
to all of you who choose a product from CANDIA.
Because for us everything we create is a tribute to our roots,
is the transformation into a relaxing experience inspired by everything we love and enjoy
on earth and in the Mediterranean Sea. And so we make for you "dream" mattresses
to give such a good and satisfying sleep that when you wake up you feel ready to enjoy every moment of the day
full of energy and good mood.

WAKE UP.

CANDIA Vision

Our vision is to always offer the ultimate quality and sleep experience, to make mattresses that give such a satisfying and refreshing sleep that everyone can be relaxed when he wakes up and ready to enjoy every moment of the day full of energy and a good mood.

Learn more about CANDIA

<https://www.candia.gr/en/company>

History and development

CANDIA was founded in 1973 and in a short time, with a belief in the value of good sleep, obsession with quality and love for nature began to expand. Going through its 5th decade of operation

CANDIA continues to offer innovative solutions and high - quality sleep products. The combination of experience, technological perfection, as well as the implementation of reliable and quality products, results in the rapid growth and presence in Greece and abroad. Today, CANDIA operates in 10 countries in Europe and Asia, with a total of 27 stores and multiple points of sale, while participating in the top world fairs for furniture of Italy and Germany.

Certifications

At CANDIA we have chosen raw materials that offer the right support to the spine, but at the same time the comfort needed so that there is no pressure on the shoulders or hips. With respect, knowledge and experience we choose the best materials, 100% natural, and the finest raw materials, to create a unique experience of sleep. All the materials that we use have been properly processed, in order to meet the hygiene criteria of a mattress. All CANDIA sleep products are produced at top quality and certified by quality management system ISO 9001, as well as the environmental management certification ISO 14001. We also use textiles certified from the OEKO-TEX STANDARD 100, a worldwide independent safety system for textile certifications.

<https://www.candia.gr/en/innovations>

Sustainable development:

As a pioneer in the use of natural materials, CANDIA realized early on, the need for conservation of natural environment. In this context, it implemented practices that contributed to the acquisition of the relevant ISO14001 certificate.

Learn more about CANDIA's commitment to protect the environment: <https://www.candia.gr/el/politiki-perivalontos>

<https://www.candia.gr/en/politiki-perivalontos>

At the same time it continues to invest in materials and technologies, culminating in 100% recyclable layers of the BODYFIX series. This philosophy is gradually expanding to all product lines.

Choosing raw materials that are fully recyclable or derived from recycled materials, collected with ethical practices, with procedures that minimize the energy footprint,

CANDIA is committed to remaining at the forefront of climate management change and sustainable development.

We are proud of our achievements!

In the context of extroversion and continuous development that characterizes CANDIA, it participates in competitions where it gets awards, and is also an active member of the European Bedding Industry Association (EBIA). The leading mattresses manufacturers, suppliers and producers of the industry are members of EBIA. CANDIA's potential was recently recognized and distinguished at the Export Leaders Awards 2021, following the double award at Corporate Superbrands Greece 2018-2019 in the field of furniture.

CANDIA's awards, however, extend to the field of design as well: 1st prize in the category «Best Interior -non-food», for the innovative architecture & interior decoration of the model store as well as the unique experience it offers to the visitor, 2nd Silver award in the category "Concept Store" rewards the philosophy and the central idea on which the design of the store was based, under the creative platform "WAKE UP IN THE MEDITERRANEAN", at the Retail Interior Awards 2017. The same concept received an honorary mention at the German Design Awards 2019, receiving this way another vote of confidence at an international level.

Corporate social responsibility

As an active member of society CANDIA is genuinely interested in environmental and social issues. Is aware of its responsibility and take measures responding to urgent requests of the local community, institutions, and charity organizations.

Special actions: Scientific Society of Mastology-Treatment and Support

CANDIA company supports the difficult and complex work of the "Scientific Society of Mastology-Treatment and Support" through the sales of its new product category, the line of «CANDIA Touch» linen.

This Society supports women in financial difficulty that have breast cancer by providing free surgery and full medical care.

CANDIA has chosen to support that scope, including a new product category in its range of products and designing a line dedicated to it from the beginning. This is how the PINK collection was launched in the stores, where part of the income will go to E.M.E.I.Σ. The packaging is marked with its logo and the corresponding awareness ribbon and thus the action is discernible to the consumer. The PINK collection of linen can be found in selected stores of CANDIA but also in the e-shop of the company

www.candia.gr

The beneficial use of olive oil has deep roots in the past and in the history of the Mediterranean. The Greeks and Egyptians used it for medicinal and cosmetic purposes: for massage, rejuvenation, to create perfumes, balms, etc. The acidity of olive oil is compatible with that of our skin. This property allows it to give the skin a soft and velvety feeling, while protecting against free radicals that cause premature aging. Olive Oil Treatment. Unique innovation inspired by nature made by CANDIA. By processing our fabrics with olive oil, they receive all the beneficial properties of olive oil. Thus, the fabrics used in the production of mattresses provide the appropriate antibacterial protection. CANDIA is the only company in the world that processes its fabrics with olive oil, the most valuable gift that the land of the Mediterranean has generously offered us. The use of olive oil in the production of our mattresses is an innovation of which we are proud and confirms our commitment to quality and our endless effort for evolution in sleep systems. You will enjoy it on the mattresses of Inventor Collection.

The branded fibres TENCEL™ are characterized by their plant origin, production with sustainable practices, and the soft feeling they leave on the skin. The fabric from TENCEL contributes to the natural ventilation of the mattress, and the preservation of the colours and when it comes to the end of its life cycle, it is biodegradable. We have selected this innovative and environmentally friendly material for the Luxuriant mattress collection, as well as the OverallLatex and Overall Memory Foam toppers.

CANDIA, having sustainability as one of its priorities, strengthens its range of raw materials with bamboo fibers. Bamboo fibers combine all the quality characteristics that make a fabric ideal for the art of mattress making: soft, healthy, safe, quickly absorbs moisture and dries even faster, extremely durable. And CANDIA prefers it for the Principal Collection, but also on Overall and OverallFoam toppers.

Natural mite control Greenfirst®. For the effective treatment of mites, CANDIA has chosen for most of its mattresses a processing of plant origin known internationally under the protected trademark of Greenfirst®. It is a non-polluting method, which does not contain chemical microcapsules of chemical pesticides or solvents, because it is based on essential oils. The natural active ingredient is geraniol, compliant with the Biocidal Products Directive 98/8 / EC and the Oeko-Tex 100 Standard. The hypoallergenic properties of Greenfirst® treatment are documented by the Institut Dermatologique d'Aquitaine IDEA.

We take care of the environment; we do not compromise on quality. By using recycled polyester in our fabrics, we give you the opportunity to obtain a quality mattress, to help reduce greenhouse gas emissions, soil, air and water pollution. This gives our planet a new opportunity and keeps it safe for future generations.

The mattresses

The inventor

COLLECTION

The version of mattress that combines modern with traditional materials. Strong support from top quality pocket springs, coconut or horsehair filling, before your body comes in contact with the high quality viscose fabric with olive oil for natural antibacterial protection, an innovation of CANDIA.

Air circulates freely through the fibers and the mattress adapts to your body more easily.

The collection has 4 types: Knossos, Keramos, Kydonia and Kamares.

KNOSSOS

Adaptation
to the needs
of your body

The inventor
COLLECTION

Knossos is at the pinnacle of comfort. In the palace of rest and privacy, a mattress will meet even the highest expectations. In the AdvancedPlusSupport system of independent springs are added coconut fibers and natural horsehair. Horsehair offers natural elasticity to the mattress. The overall sensation is achieved by the integrated topper and an additional layer of ComfortMicroSprings. Relax and let your body travel ... somewhere in the Mediterranean.

10 YEARS WARRANTY

KERAMOS

The perfect balance
between natural
and innovative
materials

The inventor
COLLECTION

The WakeUp Refreshed Pocket Springs system of dense, high and independent springs will provide you with the support you need. CocoFlex coconut fibers are complemented by foam materials in the eurotop and high-quality acrylics and cotton, for extra comfort. The viscose fabric with the special Olive Oil Treatment protects your skin.

10 YEARS WARRANTY

KYDONIA

Natural raw materials in a leading role

The inventor
COLLECTION

The dense AdvancedPlusSupport independent spring system enriches mattress Kydonia and CocoFlex coconut fibers give it even greater durability and longevity. A mattress intended to give you excellent sleep quality, taking care not only of your body, but also of your skin thanks to the antibacterial protection provided by the special Olive Oil Treatment processing.

10 YEARS WARRANTY

KAMARES

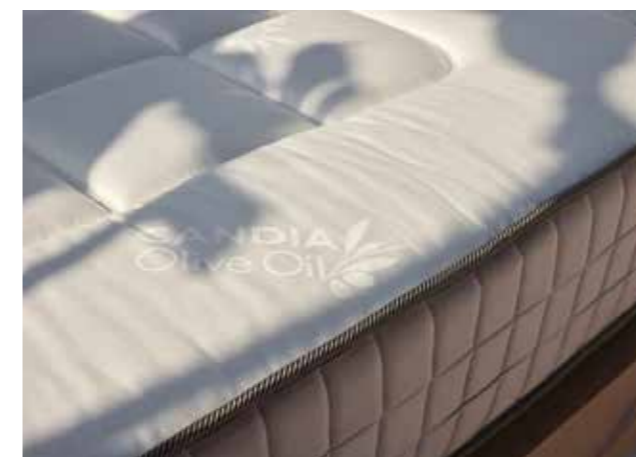

A sense of luxury
that comes
from innovation

The inventor
COLLECTION

PrimeSupport springs, a layer of CocoFlex that comes from coconut and 3 additional layers of soft materials combined with the unique fabric of 100% viscose, processed with olive oil: Kamares is the first mattress of the Inventor Collection with Olive Oil Treatment.

10 YEARS WARRANTY

The Luxuriant

COLLECTION

Tencel is an innovative beech-based fabric, an innovation that brought the forest to the world of fashion and beyond. It absorbs moisture, it is impressively soft, it is durable, has anti-bacterial properties and is absolutely recyclable and ecological. It was selected for the Luxuriant mattresses.

The mattresses of the Luxuriant Collection will gradually adapt to the curves of your body, that is, what an anatomical mattress entails.

In 4 types:
Preveli, Phaistos, Pella, Papingo και Parga.

PREVELI
The luxuriant
COLLECTION

Absolute feeling of comfort with enhanced support

The luxuriant
COLLECTION

The PREVELI mattress combines a soft, plush feel with robust support, thanks to its dense, high-performance WakeUp Refreshed Pocket Springs. The Body Comfort Foam gently conforms to the body's contours, providing exceptional comfort and adapting gradually for a personalized sleep experience. Its TENCEL fabric, made with beech fibers, effectively absorbs moisture, ensuring an ideal environment for uninterrupted, restful sleep.

7 ΕΤΗ ΕΓΓΥΗΣΗΣ

PHAISTOS

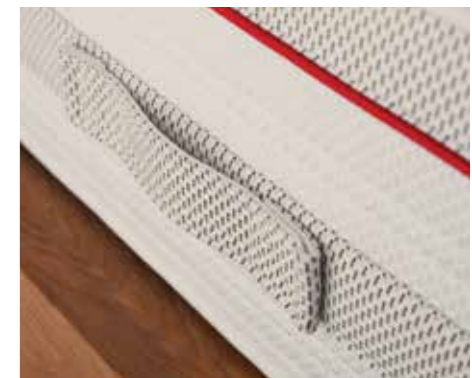

Multiple layers
of materials that
show evolution

The luxuriant
COLLECTION

With a built-in topper, the Phaistos mattress stands out in the Luxuriant Collection. WakeupRefreshedSupport is a system of dense, high and independent springs that offers the support you need. Above the springs you will find 3 layers of foamy materials and 4 more layers of soft materials from excellent-quality acrylics and cotton! Its choice will impress, while your body will thank you. Every morning.

7 YEARS WARRANTY

PELLA

Indulge in the silky touch of a beech fiber fabric

The Luxuriant
COLLECTION

Greater AdvancedSupport system of springs is offered in Pella, if required by your body and the way you sleep. Also ergonomic, with rich filling from SoftTouchPlusFoam to enjoy. Tencel outer fabric offers natural protection against bacteria, while respecting your skin.

7 YEARS WARRANTY

PAPINGO

Innovative materials for greater durability

The Luxuriant
COLLECTION

BodyComfortFoam differentiates the Papingo mattress in the way it adapts to your body thanks to its ergonomic properties, for long-lasting rest.

Foamy material is based on the PrimeSupport system of independent springs. The final touch is completed by double layers of BasicComfortPlusFoam soft materials in the top layer of the mattress

7 YEARS WARRANTY

PARGA

Upgrade your sleep experience

The Luxuriant
COLLECTION

Respect for the environment inspires us; it is not just an imperative. Nature gives us excellent quality materials for your mattress. With Parga you enjoy PrimeSupport support level from high density springs, while SoftTouch and SoftTouchPlus foams make it suitable for most body types.

7 YEARS WARRANTY

The principal

COLLECTION

In the various stages of sleep, your body is still working to decongest you from a busy day. The Principal mattress line was created so that you wake up really relaxed.

With bamboo fabric and recycled polyester, for optimal moisture regulation and protection against microorganisms. Bamboo is 4 times more absorbent than cotton and contains natural antibacterial ingredients, while offering a soft and cool feeling.

By choosing a mattress from the Principal Collection you enhance the protection of the environment and ensure ideal sleeping conditions.

In 4 types:

Apollonia, Aktoriri, Acanthus or Assos, with different levels of support, depending on the type of springs and soft materials, so that they respond appropriately, depending on your body type.

ASSOS

What is the feeling that
best suits your body?

The principal
COLLECTION

The simple sensation of relief when you sleep on the ASSOS mattress cannot reveal the complexity of the composition inside. AdvancedSupport higher spring system, dense SoftTouchFoam foamy materials, built-in topper and DacronPad top coat for high comfort.

5 YEARS WARRANTY

BAMBOG

ACANTHUS

Support
and
soft touch
by bamboo
fibers

The principal
COLLECTION

PrimeSupport means a larger number of springs per square meter. Combined with fabric that has undergone special processing, the natural method Greenfirst®, for effective treatment of mites, without harming the nature.

5 YEARS WARRANTY

BAMBOG

AKROTIRI

Natural raw materials at the service of your comfort

The principal
COLLECTION

The mattress that stands out from the characteristic ripple pattern on the fabric made of bamboo fibers! The high density ComfortPlusFoam layer is the one that will relax you, while the top layer BasicComfortPlusFoam is the one that will embrace you! DuraFirmSupport spring system base, ideal for those who prefer a firmer feel for their mattress.

5 YEARS WARRANTY

BAMBOO

APOLLONIA

Simplicity and light feeling in every movement

The principal
COLLECTION

Its folds on the surface are reminiscent of a sandy beach and not by accident. The combination of DureAceSupport support with DuraComfort and ComfortPlusFoam foam, as well as soft SoftTouchFoam and DacronPlusPad materials, allow the mattress to adapt to your body.

5 YEARS WARRANTY

BAMBOG

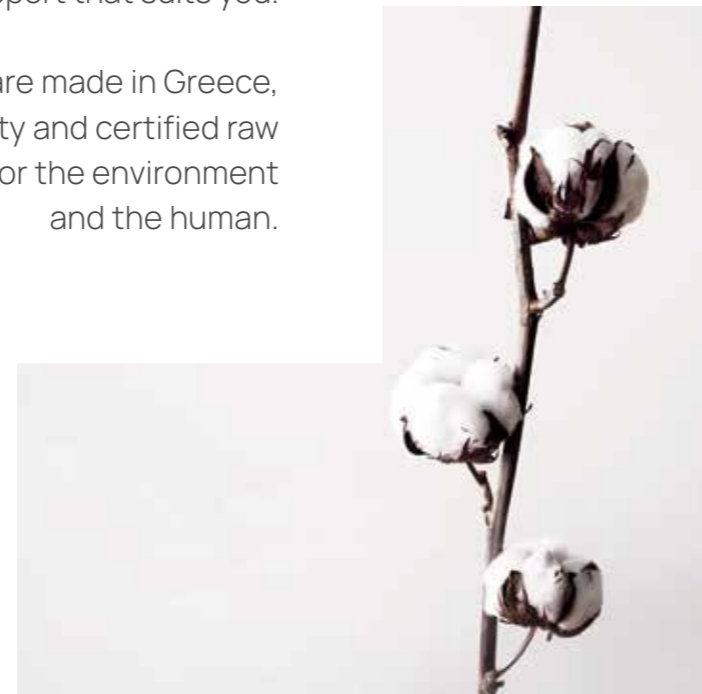

The essential

COLLECTION

The line of mattresses that introduces you to CANDIA's sleeping philosophy. Made of organic cotton and recycled polyester, which offers protection against mites! With durable springs and foamy materials that allow air circulation.

In 3 types: Monemvasia, Methone and Malia depending on the level of support that suits you.

CANDIA mattresses are made in Greece, from exceptional quality and certified raw materials, with respect for the environment and the human.

MALIA

The essential

COLLECTION

We know your need for even greater endurance. PrimeSupport spring system with 2 exceptional foamy materials ComfortFoam and BasicComfortPlusFoam, DacronPlus layer for improved sense of contact with the body and excellent quality certified EcoCycle fabrics.

3 YEARS WARRANTY

METHONE

The essential
COLLECTION

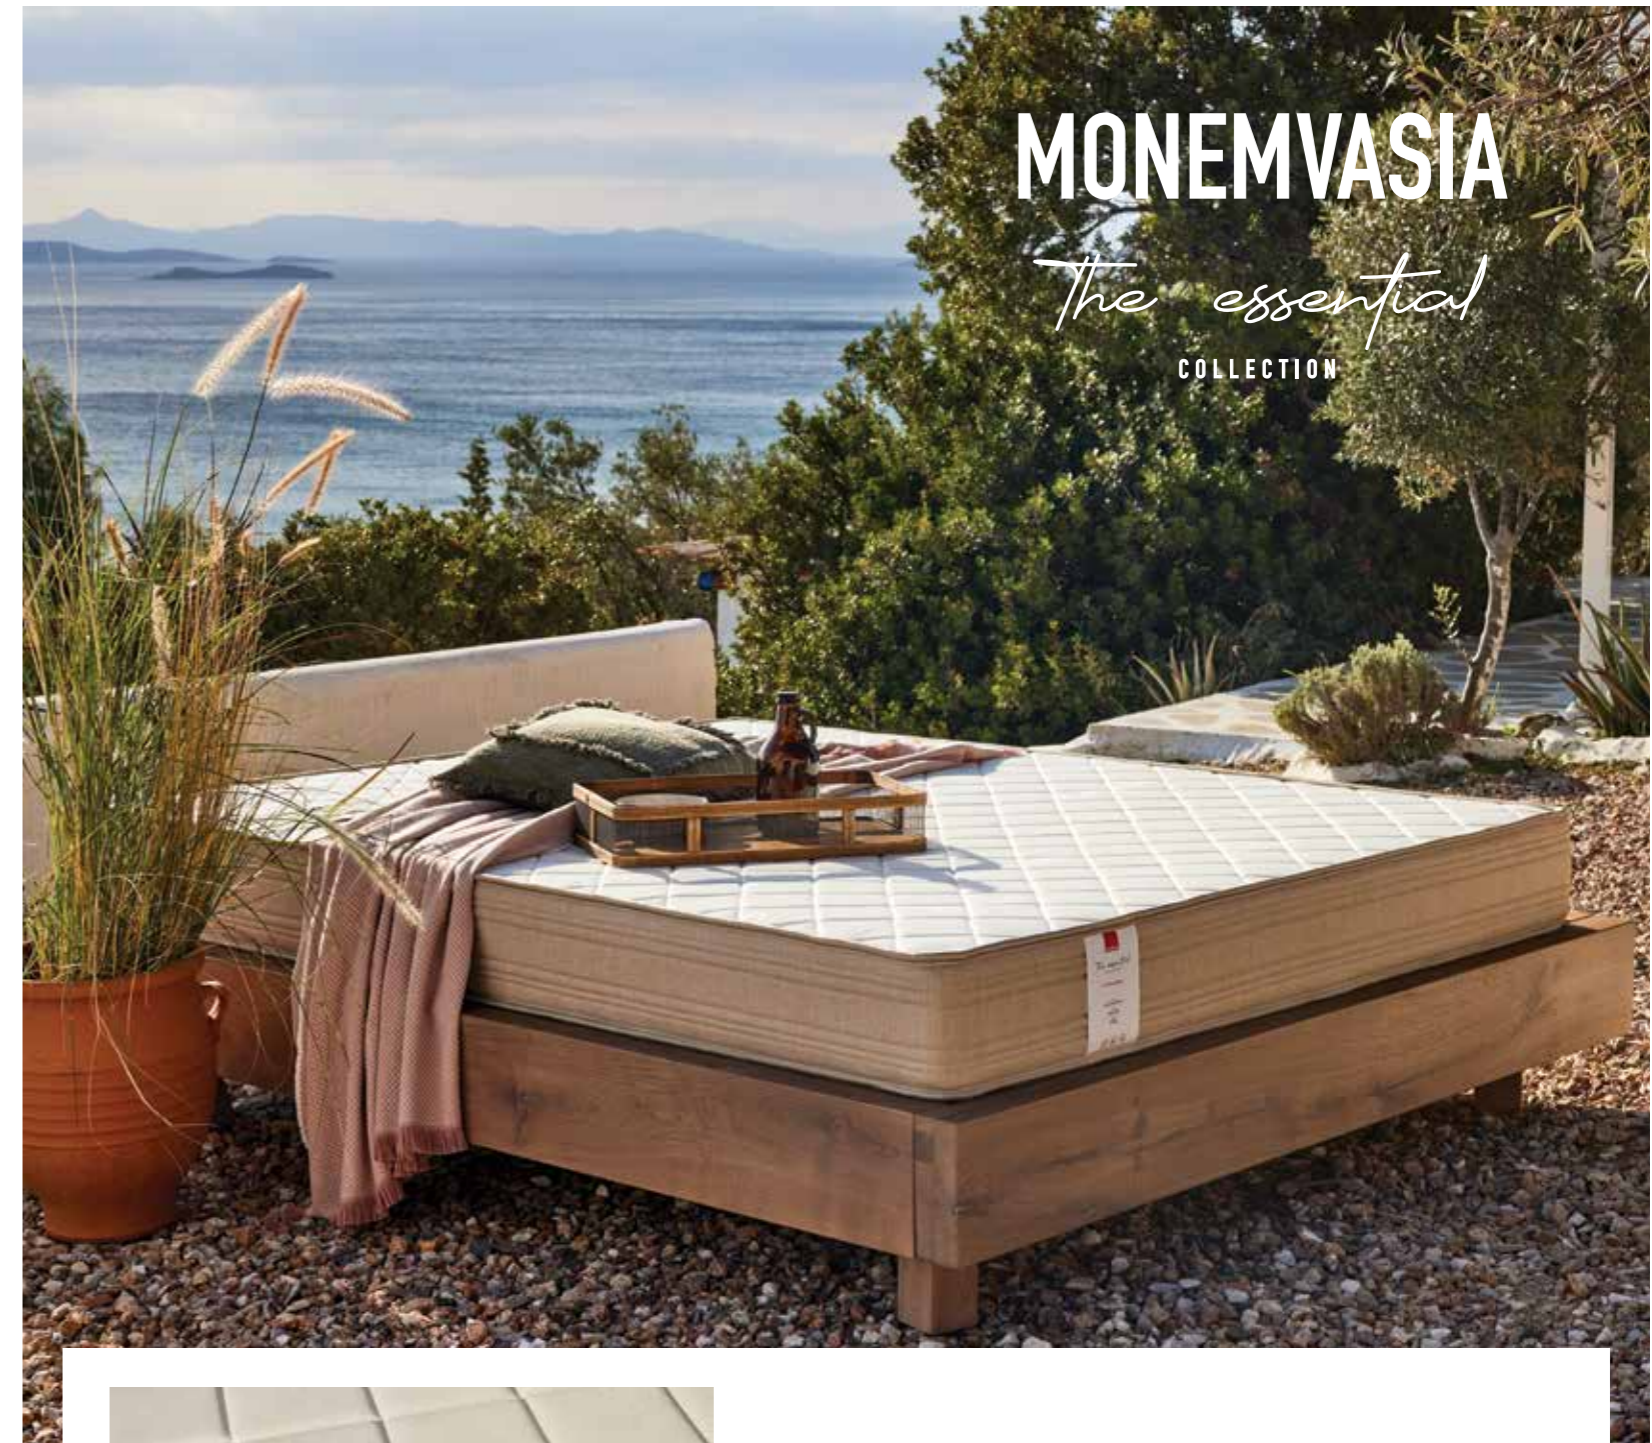

Recognized by the cellular pattern of the fabric made of high quality cotton and recycled polyester. The denser DuraAceSupport spring structure responds better to body types that have this need, while an extra layer of Cotton Top Pad will contribute to an excellent sleep experience.

3 YEARS WARRANTY

MONEMVASIA

The essential
COLLECTION

The squares that will embrace your body with quality fabrics and strong Durable springs. This support combined with the dense compressed cotton padding and BasicComfortPlusFoam offers a complete sense of stability and relief as you lie down.

3 YEARS WARRANTY

OVERALL TENCEL MEMORY 11CM

In this topper, also with Tencel fabric for better ventilation, the Memory Foam makes the difference. It offers a slow and progressive recovery, so you feel the topper embracing your body better throughout sleep. Finally, due to its Thermo-Regulating property, it also regulates its temperature, especially in the summer months.

The Toppers

COLLECTION

CANDIA's toppers are designed to offer an extra sense of comfort in a mattress. Placing them on top of the mattress enhances the overall quality of sleep, as the lightweight materials we use help keep the mattress from pressing on your body overnight. As a result, you do not have to roll while sleeping, thus ensuring a more restful sleep. In addition, the manufacturing process ensures that the materials will remain in place, without the unpleasant phenomenon of folding materials, and therefore without the formation of bumps or uneven surfaces.

OVERALL BAMBOO FOAM 9CM

Even richer sense of relief from a thicker layer of foamy materials. Not only do you feel it, but the mattress as a whole gets an improved recovery after immersion. Bamboo fabric makes it not only soft and healthy, but also very durable.

OVERALL TENCEL LATEX 9CM

The OVERALL LATEX topper offers a unique feeling and comfort. It contains fluffy materials and Latex of exceptional quality, in order to smooth and reduce to a minimum the pressures that our body receives during sleep, thus significantly improving the performance of each mattress. The environmentally friendly Tencel fabric will also contribute to its better ventilation.

OVERALL BAMBOO 7CM

The OVERALL topper offers exceptional comfort, as the lightweight materials used help the mattress not to press on your body during the night. The bamboo fiber fabric guarantees good moisture regulation.

BAMBOO

TOPPER

Quilted top layer with foam material on the inside and rubber on the outside, for its firm application in the mattress. The light materials used, help to avoid putting pressure on your body during the night and offer a restful sleep.

The protectors

COLLECTION

If there is one thing that can protect your mattress from daily wear and tear, but also help keep it clean for longer, this is a protector.

CANDIA gives you all the alternatives you need through different types of innovative protective coatings.

It is applied to your mattress with 4 retainers at the 4 corners. The dimension of the protective cover should be the same as the dimension of your mattress.

Coolmax

It adjusts temperature and moisture levels by maintaining a steady temperature during sleep.

Organic Cotton

Basic protection from pure organic cotton.

Anti Bedbug

Keeps microorganisms away from the mattress, helps fight mites, while at the same time acts as a mosquito repellent.

Anti Ageing

Beneficial properties for a refreshing sleep, with vitamin E and aloe and Jojoba extracts.

Triple Fresh

It absorbs unpleasant odors from the surrounding area of the room and neutralizes them.

Protect

Waterproof mattress protector.

Smooth

Cotton mattress protector, which protects the mattress from daily use.

The pillows

COLLECTION

A complete sleep experience includes the pillow in addition to the mattress. The total support it provides, its maximum immersion and the contact with the face make the pillow an additional regulator of the sleep-wake process.

CANDIA is well aware of this relationship and offers a wide range of pillows, from different materials and in various dimensions, so you can find the one that best suits both your body and the mattress you choose.

Technogel

Improved blood circulation, and soothes the neck and shoulders, while allowing airflow to adjust temperature. Ergonomic - non-toxic - biocompatible.

Natural

Exclusively from natural materials: cotton, linen, or feather and made by hand. Choose according to the way you sleep.

Classic

With rich Memory Foam material, which gives your pillow an anatomical character and helps it to better adapt to the shape of your head. It will relieve you.

The linen

COLLECTION

CANDIA has made sure that all the materials it uses are environmentally friendly, but also friendly to the human skin. Especially those of the outer surface that come in direct contact with you. The same should apply to the other items you use: protectors, sheets, pillowcases. Especially if you have sensitive skin or problems with allergies.

We offer you 3 lines of high quality materials, each one special: Organic Collection from 100% organic cotton, Fitted Fine jersey that doesn't need ironing, CottonSatin for durability and smooth, silky texture.

Available in colors that predispose you to a comfortable sleep and dimensions even for our highest mattresses.

The mediterranean ACCESSORIES

When we sleep on a CANDIA mattress we enjoy a satisfying and refreshing sleep and each of us wakes up relaxed and ready to enjoy every moment of the day full of energy and good mood. So we decided to expand this Mediterranean aura with our motto "Wake up in the Mediterranean" in a range of products that accompany us in various activities until we lie down. Products (decorative and useful) that are placed in places that we love to relax after a long day but also products for personal use.

Our new range emerged through collaborations that find their roots basically in our hometown Crete, with gratitude for the past, love for the present and hope for the future. So when we want our daily moments to have a special meaning, we choose CANDIA's Mediterranean Accessories.

HOSPITALITY/CARAFE

Hospitality is a sign of high culture. The welcoming of the guests in the most beautiful part of the house and the offer of food and drink were for years the heart of the Greek hospitality.

Thus, the collection of CANDIA Mediterranean Accessories could not miss a drink offering set made of handmade crystal made in Anogia, Mylopotamos, in Crete. A traditional set of carafe and glasses for tsikoudia or other liqueurs to offer, where none is similar to its next. The source of inspiration is the elements of nature such as stone, wood, water and shells which lend their qualities to crystal giving it a special character. An ideal choice for a gift in a wonderful package.

SEA HERBAL TEA

SEA herbal tea blend, with its amber colour and mellow sweet flavour, is the perfect beverage for the relaxing hours of the day. Whole herbal leaves, flowers and fruits, sourced by small scale organic family farms, are meticulously packed by hand in ecological packages. Enjoy a SEA herbal tea blend and travel to a deep blue Greek sea away from stress and concerns.

PERSONAL CARE

With ecological conscience and respect for the sacred olive tree, in an ecological laboratory in Crete, personal care products are made by hand with zero energy consumption from organic extra virgin olive oil and pure raw materials. Soap bars are ecological, 100% biodegradable and are produced in small batches. Suitable for all skin types on face, body and hair.

WOODEN PUZZLE

Wooden handmade decorative objects, made with love from natural wood, ecological varnishes and colors upgrade the aesthetics of the space while at the same time serving the need for interactive engagement. The decorative creations were made in Heraklion, Crete, with influences from our childhood memories. With sensitivity and desire for a controlled utilization of natural resources, the wood used has FSC controlled forestry certification.

ROOM FRAGRANCES

Improve your environment and improve your senses. Use the CANDIA space aromatics, 100% natural and environmentally friendly, made in an ecological laboratory in Crete from extra virgin organic olive oil and 100% pure essential oil.

The display of the products as they appear on this printed or digital file may not correspond to reality. Colors, dimensions, materials may have been modified from the initial photo shoot until the final production. Technical characteristics, descriptions and warranty can change without prior notice.
